Reasons for Allowance

1. Claims 1 through 14 allowed over prior art of record.

The following is an examiner's statement of reasons for allowance:

The current application is concerned with conserving upstream bandwidth in DOCSIS-based communication systems by allocating an initial maintenance request for an upstream channel. The closest prior art of record, Marcel et al. (US 5,317,571) and Kobayashi et al. (US 4,694,453) are in the same field of endeavor. However, the cited art fails to disclose, alone or in combination the unique method steps of "allocating an initial maintenance region in a communication channel by adding an offset to a clock output to offset a starting point of the initial maintenance region (claim 10) and defining the size of the maintenance region to be at least as great as the difference between a greatest propagation delay and least propagation delay of all remote devices (claim 1) associated with the channel", and render the claims allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Afsar M. Qureshi whose telephone number is (571) 272 3178. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chi Pham can be reached on (571) 272 3179. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
